

School Closures - Access to Online Maths Program: Mangahigh.com

Dear Parent/Guardian,

As part of our remote learning strategy during the school closures, we will be using the online maths resource Mangahigh.com. This resource will help ensure students continue to learn maths remotely during this time. The program has a variety of educational games and quizzes that will be assigned by their teacher for them to complete at home. Additionally, Mangahigh automatically creates a list of recommended activities based on their capabilities, to support every student with their learning needs.

Mangahigh works on any device with an internet connection and is available for your child to use at home 24 hours a day, 7 days a week. Teachers will be able to track your child's progress to ensure their learning continues and remains targeted. You can log in with your child's account via Mangahigh.com if you'd like to take a look and provide any additional support.

Your child will receive their login information from their teacher so they can access Mangahigh at home. Please contact support@mangahigh.com if you have any questions about how to use Mangahigh.

Thank you for your understanding.
